

# How to Put Out Your Garbage

Please use specific garbage bags — bags can be bought in Kasai city Office, Community Center (Kominkan), and also in supermarkets, convenience stores, and other local stores in Kasai.

Use for domestic waste	Size	Price
Burnable waste Landfill waste	Large(45L)	250yen (for10bags)
	Middle(30L)	150yen (for10bags)
	Small(20L)	100yen (for10bags)

## ◆ How to put out your garbage

1. Follow the Garbage Calendar
2. Set out garbage by 8:30a.m. on the collected day.
3. When you have large amounts of garbage, bring the directly to the Clean Center (garbage handling facility)

## ◆ Use specific garbage bags for these types of garbage below:

1. Burnable waste (kitchen scraps, paper, vinyl, plastic waste, bamboo, clothes, wooden waste, rubber waste)
2. Landfill garbage (pottery, glass, light bulbs)

## ◆ You do not need to use specific garbage bags for recycle garbage such as:

- Small electric appliances (portable stereo, video game, electronic thermometers, hair dryer etc)
- Cans/Metal items
- Styrofoam/Food trays - cut into small pieces
- Paper drink cartons - cut it open and dry, then bundle items of the same size with string.
- PET bottles - remove aps and labels and crush bottles
- Bottles (Beverage, liquor, food and seasoning bottles only. Others are landfill garbage.)
  - remove caps and labels and separate bottles into;  
Colorless/ Brown/ Others and put them into each garbage boxes.

\*Caution! : All items should be washed.

◆ The city of Kasai does not handle their collection below.

- One-time volume garbage

- Burnable waste – Bring them directly to the Clean Center of Ono (garbage handling facility). \*Price: 90yen per 10kg

- Non-burnable waste – Bring them directly to the Clean Center of Kasai (garbage handling facility). \*Price: 90yen per 10kg

- Oversized garbage – Bring them directly to the Clean Center of Kasai (garbage handling facility). \*Price: 90yen per 10kg

- TV/ Air-con/ refrigerator/ freezer/ washing machine – These items are collected by appliance stores.

- Items that are difficult to handle (Pharmaceutical products/ Agricultural chemical/ Tires/ Batteries/ Waste oil/ Solvent/ Gas cylinders/ Fire extinguishers / Other poisonous or hazardous articles)

- Please contact the store of original purchase or a retailer.

- Personal Computers – According to the Law for Promotion of Effective Utilization of Resources, each computer manufacturer collects and recycles used personal computer.

## Attention!

\*Please co-operate the waste materials carried out by schools. They collect newspapers, clothes, old magazines, aluminum cans, corrugated cartons, metal items.

\*Draining the liquid completely improves the garbage's incineration efficiency, making it possible to burn it with little energy. Please cooperate in reducing our energy load.
